Barcelona, 19th June 2009

Trina Solar Limited (NYSE: TSL) ("Trina Solar" or the "Company"), a leading integrated manufacturer of solar photovoltaic products from the production of ingots, wafers and cells to the assembly of PV modules, today announced that it has entered into a sales agreement with customer Enfinity NV ("Enfinity"). The agreement was signed in conjunction with the recent Intersolar-Munich Conference, held from May 27 to May 29.

Under the terms of this agreement, Trina Solar will supply Enfinity with approximately 15 MW of PV modules, with shipments scheduled in the current second quarter.

"We are very pleased to announce this new sales agreement with Enfinity, to further strengthen the existing well established partnership with Enfinity. This new contract will significantly help to grow new projects in markets such as Germany, Belgium, Italy and other European solar markets," stated Mr. Arturo Herrero, Vice-President of Sales & Marketing of Trina Solar. "We look forward to keep expanding our relationship with our loyal partner Enfinity by providing high quality modules, premium service and low cost industry leading platform."

"Enfinity is proud of this new sales agreement with Trina Solar. We consider this as a continuation of our good relationship with Trina Solar that supplies Enfinity and its customer base with the best in class solar technology," commented Mr. Gino Van Neer, Founder of Enfinity.

About Trina Solar Limited

Trina Solar Limited (NYSE: TSL) is a well recognized manufacturer of high quality modules and has a long history as a solar PV pioneer since it was founded in 1997 as a system installation company. Trina Solar is one of the few PV manufacturers that has developed a vertically integrated business model from the production of monocrystalline and multicrystalline silicon ingots, wafers and cells to the assembly of high quality modules. Trina Solar's products provide reliable and environmentally-friendly electric power for a growing variety of end-user applications worldwide. For further information, please

About Enfinity

Established in Waregem, (Belgium) Enfinity is a fast-growing and ambitious company with international activities in renewable energy. As a project specialist, Enfinity ensures the implementation of solar energy power plants, and is today already present in twelve countries including Belgium, Italy, Spain, France, Greece, Germany, Czech Republic, Bulgaria, Middle East, China, Canada and the US, Canada and Germany. In order to finance these energy projects, Enfinity works with individual project companies whose financial means are provided by equity investors and banks. Enfinity is in the process of financing PV projects with a total capacity of more than 145 MW and is planning to finance several hundred megawatts through 2010. Enfinity also sells end-to-end solar installations to companies and private individuals via an extensive dealer network.
